Prabhudas Jamnadas & Co.

Global Agricultural Exporters

Prabhudas Jamnadas & Co. is a distinguished, Government of India recognized Star Export House, based in Rajkot, Gujarat, India. With a legacy dating back to 1977, we have established ourselves as a trusted leader in the global trade of premium agricultural products. Our diverse product range includes high-quality seeds, Indian spices, pulses, oil seeds, oil cake & de-oil cake, cotton, and cereals, all of which reflect our commitment to excellence and customer satisfaction.

As a Star Export House, we are honored for our exceptional export performance and our ability to consistently meet the needs of international markets. This prestigious recognition highlights our commitment to delivering top-quality products with efficiency and reliability. We serve clients across the Asian, Gulf, and European markets, with a strong and growing presence on the global stage.

Under the visionary leadership of our mentors Mr. Vipul Kotak, Mr. Mahesh Kotak, Mr. Hiren Kotak and Mr. Malay Kotak we have flourished through decades of dedicated service, leveraging years of experience and industry insight to build a robust and trusted business. Their strategic guidance has been instrumental in driving our success and maintaining our reputation for quality and innovation.

At Prabhudas Jamnadas & Co., we are not just about business; we are about sustaining tradition, delivering healthy products, and building lasting relationships with our customers. Our unwavering focus on quality, taste, texture, and aroma ensures that every product is a testament to the rich agricultural heritage of India, making us a preferred partner for businesses across the globe.

We are committed to adapting to evolving market needs while staying true to our core values of integrity, excellence, and a customer-first approach. Looking ahead, we remain dedicated to expanding our customer base and further strengthening our position in the global agricultural trade market.

OUR GOALS

At Prabhudas Jamnadas & Co., we are driven by a clear vision and a set of goals that guide our efforts toward continuous growth and excellence. Our goals reflect our commitment to quality, customer satisfaction, and long-term growth.

OUR PRODUCTS

Alfalfa Seeds

A nutritious legume, Alfalfa is ideal for high-quality animal feed, offering excellent forage with rich proteins, vitamins, and minerals. Known for its adaptability and nitrogen-fixing ability, it enhances soil fertility and provides multiple harvests per season, making it a valuable crop for livestock farmers.

Onion Seeds

Known for their high germination rate, our Onion Seeds produce robust, flavorful onions with excellent storage capacity. Suitable for diverse climates, they ensure consistent growth and uniform bulb size. Ideal for commercial farming, these seeds contribute to high-yield harvests, meeting both local and export demands.

Sesbania Seeds

A fast-growing legume, Sesbania is ideal for green manure, soil improvement, and erosion control. It enriches the soil by fixing nitrogen and improving organic matter. These seeds thrive in a variety of soils and climates, making them perfect for sustainable farming and agroforestry applications.

Carrot Seeds

Our high-quality Carrot Seeds produce vibrant, sweet, and crunchy carrots with excellent texture. Suitable for diverse climates, they ensure uniform root development and high yields. Ideal for commercial growers, these seeds are perfect for fresh markets and processing, offering superior flavor and long storage life.

OUR PRODUCTS

Niger Seeds

Niger Seeds (*Guizotia abyssinica*) are small, black oilseeds widely used for edible oil extraction and as premium bird feed. They are rich in healthy fats, protein, and essential nutrients, and are valued for their high oil content, mild nutty flavor, and strong demand in both food and feed industries.

Sunn Hemp Seeds

Sun Hemp Seeds (*Crotalaria juncea*) are primarily used in agriculture for green manure and soil improvement. They help fix nitrogen, enhance soil fertility, suppress weeds, and improve soil structure, making them an eco-friendly choice for sustainable farming.

Sudan Grass Seeds

Sun Hemp Seeds (*Crotalaria juncea*) are primarily used in agriculture for green manure and soil improvement. They help fix nitrogen, enhance soil fertility, suppress weeds, and improve soil structure, making them an eco-friendly choice for sustainable farming.

Red Kidney Beans

Red Kidney Beans are nutritious legumes widely used in global cuisines. They are rich in protein, fiber, and essential minerals, with a firm texture and mildly sweet taste, making them ideal for curries, soups, salads, and processed food applications.

OUR PRODUCTS

Okra Seeds

Our premium Okra Seeds produce vigorous plants with tender, flavorful pods rich in nutrients. Highly adaptable to various climates, these seeds offer consistent growth, early maturity, and disease resistance. Perfect for fresh consumption or processing, they are ideal for high-yield commercial farming.

Chia Seeds

A superfood rich in omega-3, fiber, and antioxidants, Chia Seeds are perfect for health-conscious consumers. These tiny seeds are versatile, adding nutrition to smoothies, salads, and baked goods. Known for their high energy content.

Cumin

Our premium Cumin Seeds are known for their rich aroma and distinctive flavor, widely used in culinary dishes and spice blends. Packed with essential oils and antioxidants, they enhance taste while offering health benefits.

Black Cumin

Renowned for its medicinal properties, Black Cumin Seeds offer a unique, earthy flavor used in traditional cuisines and herbal remedies. Rich in essential oils and antioxidants, they support digestive health and immunity. Ideal for pharmaceutical, food, and health industries.

OUR PRODUCTS

Fenugreek

Known for its health benefits and culinary uses, Fenugreek Seeds are rich in fiber, vitamins, and minerals. Popular in traditional medicine and cuisine, they support digestion and blood sugar regulation. Ideal for spice blends, herbal supplements, and food industries, Fenugreek is valued for its versatility and export potential.

Fennel

Our premium Fennel Seeds are prized for their sweet, aromatic flavor, commonly used in culinary dishes, teas, and spice blends. Rich in antioxidants and essential oils, fennel aids digestion and offers numerous health benefits. Perfect for food processing, herbal remedies, and spice industries.

Dill Seeds

Aromatic and flavorful, Dill Seeds are widely used in pickling, culinary dishes, and spice blends. Known for their digestive benefits, these seeds are rich in essential oils and antioxidants.

Groundnut

Our high-quality Groundnuts are rich in protein, healthy fats, and essential nutrients, making them a versatile ingredient in food products. Ideal for snacking, oil extraction, and confectionery, they offer excellent taste and nutritional value.

OUR PRODUCTS

Peanut

Our premium Peanuts are a rich source of protein, healthy fats, and essential vitamins. Ideal for snacking, oil production, and use in confectionery, they deliver great taste and nutritional value. Perfect for food processing and export markets, these peanuts meet the highest standards of quality and freshness.

Soyabean

Rich in protein and essential nutrients, Soyabean is a versatile crop used in food products, oil extraction, and animal feed. Known for its high protein content and health benefits, it is ideal for the food processing and nutrition industries.

Castor

Castor Seeds are the source of castor oil, valued for its industrial and medicinal applications. Known for its high oil content, castor is used in cosmetics, pharmaceuticals, and biofuels. Ideal for extraction industries, these seeds offer consistent quality and high yields, catering to global demand.

Hulled Sesame

Our Hulled Sesame Seeds are carefully processed to remove the outer husk, enhancing their rich, nutty flavor and texture. Packed with protein, calcium, and healthy fats, they are ideal for bakery products, confectionery, and health foods. Perfect for export markets, offering high nutritional value and versatile applications.

OUR PRODUCTS

White Sesame

Our premium White Sesame Seeds are prized for their delicate flavor and high oil content. Rich in nutrients like calcium and magnesium, they are widely used in bakery products, sauces, and health foods. Ideal for global markets, offering excellent quality for culinary and industrial applications.

Black Sesame

Known for its intense flavor and rich nutrient content, Black Sesame Seeds are widely used in Asian cuisines, bakery products, and health foods. Packed with antioxidants, calcium, and healthy fats, these seeds add texture and taste to dishes. Ideal for export markets and gourmet food industries.

Mustard

Our high-quality Mustard Seeds are valued for their sharp, pungent flavor, making them ideal for spices, condiments, and oil extraction. Rich in essential oils and nutrients, mustard is widely used in food processing, sauces, and traditional medicine. Perfect for local and global markets, ensuring consistent quality.

Kabuli Chickpeas

Known for their large size and creamy texture, Kabuli Chickpeas are rich in protein, fiber, and essential nutrients. Popular in Mediterranean and Middle Eastern cuisines, they are ideal for hummus, salads, and soups.

OUR PRODUCTS

Desi Chickpeas

Smaller and darker than Kabuli, Desi Chickpeas are rich in protein, fiber, and antioxidants. Commonly used in Indian and Southeast Asian dishes, they are ideal for curries, snacks, and flours. These nutrient-dense chickpeas are perfect for local and export markets, offering great versatility and quality.

Pigeon Peas

Highly nutritious and protein-rich, Pigeon Peas are a staple in tropical and subtropical cuisines. Commonly used in soups, stews, and curries, they are valued for their versatility and earthy flavor. Ideal for food processing and export markets, Pigeon Peas are perfect for both fresh and dried applications.

Green Mung

Rich in protein, fiber, and essential vitamins, Green Mung Beans are highly nutritious and easy to digest. Widely used in Asian cuisines, they are ideal for sprouting, soups, and salads. These versatile beans are perfect for both fresh and processed markets,

Black Gram

Black Gram, also known as Urad Dal, is a protein-rich legume commonly used in Indian and South Asian cuisines. With its dense texture and earthy flavor, it's ideal for soups, stews, and lentil-based dishes. It's highly nutritious,

OUR PRODUCTS

White Kidney Beans

White Kidney Beans: Rich in protein, fiber, and essential nutrients, White Kidney Beans are ideal for soups, salads, and stews. Known for their smooth texture and mild flavor, they are a versatile ingredient in various culinary applications.

Green Peas

Our premium Green Peas are nutrient-rich, packed with protein, fiber, and essential vitamins. Their sweet flavor and tender texture make them ideal for soups, salads, and frozen vegetable products.

Foxtail Millet

A highly nutritious, gluten-free grain, Foxtail Millet is rich in protein, fiber, and antioxidants. Known for its easy digestibility, it's ideal for porridges, salads, and baked goods. Drought-resistant and suitable for arid regions, it's a perfect choice for health-conscious markets and sustainable farming practices.

Pearl Millet

A drought-resistant and nutrient-dense grain, Pearl Millet is rich in fiber, protein, and essential minerals like iron and magnesium. It's ideal for flour, porridge, and livestock feed, offering excellent versatility. Suitable for arid climates, Pearl Millet is a staple in both traditional diets and modern food industries.

OUR PRODUCTS

Wheat

A globally consumed staple grain, Wheat is rich in carbohydrates, fiber, and essential nutrients. Ideal for bread, pasta, and baked goods, it is versatile and widely used in food processing.

Sorghum

A drought-tolerant, nutrient-rich grain, Sorghum is valued for its versatility in food, fodder, and biofuel production. High in protein, fiber, and antioxidants, it's ideal for gluten-free products, cereals, and animal feed. Suitable for dry climates.

Oil Cake

A nutrient-rich byproduct of oil extraction, Oil Cake is packed with proteins and essential nutrients, making it ideal for animal feed and organic fertilizers. Derived from seeds like peanuts, soybeans, and sesame, it supports healthy livestock growth and enhances soil fertility.

De-Oiled Cake

After oil extraction, De-Oiled Cake retains valuable proteins and fibers, making it an excellent choice for animal feed. With reduced fat content, it provides high-quality nutrition for livestock, ensuring healthier growth and productivity. Suitable for dairy and poultry industries, and sustainable farming practices.

OUR PRODUCTS

Guar Gum

A natural thickening, stabilizing, and emulsifying agent derived from guar seeds. Widely used in food, pharmaceutical, and industrial applications for its high viscosity and versatility.

VEGETABLES & FRUITS

GARLIC, ONION, GREEN CHILLI, BANANA, APPLE

Blended Spices

A perfect fusion of handpicked spices, finely blended to deliver authentic taste, rich aroma, and consistent quality. Ideal for enhancing the flavor of traditional and contemporary recipes.

Edible Oil

Peanut, Soya, Mustard, Castor, Cotton, Sesame

Extracted from premium-quality seeds such as Peanut, soybean, and cotton, our Edible Oil is pure, rich in essential fatty acids, and ideal for cooking, frying, and baking. Known for its light texture and high nutritional value, it supports heart health and is perfect for both home and commercial use.

OUR PRODUCTS

Alfalfa Seeds Powder

Alfalfa Seeds Powder is a nutrient-rich product made from finely ground alfalfa seeds. It is valued for its high protein, fiber, vitamins, and minerals, and is commonly used in health supplements, animal feed formulations, and agricultural applications for its natural nourishment benefits.

Alfalfa Grass Powder

Alfalfa Grass Powder is a finely milled powder made from dried alfalfa grass. It is rich in protein, chlorophyll, vitamins, and minerals, and is widely used in animal feed, nutraceuticals, and organic farming for its natural nutritional and soil-enriching properties.

Psyllium Husk

Psyllium Husk is a natural dietary fiber obtained from the seeds of *Plantago ovata*. It is widely used in food, pharmaceutical, and nutraceutical industries for digestive health, bowel regulation, and cholesterol management, valued for its high soluble fiber content and purity.
